

# IES CHARLES RUDD DISTINGUISHED PUBLIC LECTURES

## SUSTAINABILITY: IMPACT ON OUR FUTURE LIVES

14 May 2021 | Friday  
SUTD Auditorium | 9am - 1pm

**PDU (TBC) | 2 STU (Structural)**

### Speakers and Panelists

**Distinguished Speaker**  
**Prof Lui Pao Chuen**  
Temasek Defence Professor

**Mr Benedict Chia**  
Director (Strategic Issues),  
National Climate Change  
Secretariat (NCCS), Strategy  
Group, Prime Minister Office

**Dr Bicky Bhangu**  
President, South East Asia,  
Pacific & South Korea,  
Rolls-Royce

**Mr Calvin Chung**  
Chief Environmental Officer,  
JTC Corporation

**Er. Goh Chee Tiong**  
Chief Engineer / Deputy Director,  
Industry Regulation 1 Department,  
Carbon Mitigation Division,  
National Environment Agency (NEA)

**Guest-of-Honour**  
**Ms Grace Fu**  
Minister  
Ministry of Sustainability  
and the Environment

**Dr Hazel Khoo**  
Executive Director, Singapore  
Institute of Food and  
Biotechnology Innovation (SIFBI),  
A\*STAR

**Mr Manohar Khiatani**  
Senior Executive Director,  
CapitaLand Group

### Panel Moderator

**Prof Seeram Ramakrishna, FEng**  
Chairman, Circular Economy Taskforce NUS  
and Chairman, Sustainable Manufacturing  
Technical Committee, The Institution of  
Engineers, Singapore (IES)

# PROGRAMME

TIME	SESSION
9:00am	<b>Welcome Address</b> <i>Prof Chong Tow Chong, President, Singapore University of Technology and Design (SUTD)</i>
9:05am	<b>Opening Address</b> <i>Dr Richard Kwok, President, The Institution of Engineers, Singapore (IES)</i>
9:15am	<b>World Engineering Day Message</b> <i>Er. Tan Seng Chuan, Executive Board Member, World Federation of Engineering Organisations (WFEO) and Emeritus President, The Institution of Engineers, Singapore (IES)</i>
9:25am	<b>Keynote Address</b> <i>Guest-of-Honour Ms Grace Fu, Minister, Ministry of Sustainability and the Environment</i>
9:45am	<b>Presentation of IES Lifetime Engineering Achievement Award</b> <i>Guest-of-Honour Ms Grace Fu, Minister, Ministry of Sustainability and the Environment</i>
10:00am	<b>Distinguished Speaker</b> <b>Growing Smart Cities in Nature</b> <i>Prof Lui Pao Chuen, Temasek Defence Professor</i>
10:30am	<b>Driving Sustainability in the Built Environment</b> <i>Mr Manohar Khiatani, Senior Executive Director, CapitaLand Group</i>
10:50am	Coffee Break
11:05am	<b>A Journey Towards Clean Energy Powered Transportation</b> <i>Dr Bicky Bhangu, President, South East Asia, Pacific &amp; South Korea, Rolls-Royce</i>
11:25am	<b>Future of Food</b> <i>Dr Hazel Khoo, Executive Director, Singapore Institute of Food and Biotechnology Innovation (SIFBI), A*STAR</i>
11:45am	<b>Climate Change Challenges and Singapore's Plans</b> <i>Mr Benedict Chia, Director (Strategic Issues), National Climate Change Secretariat (NCCS), Strategy Group, Prime Minister Office</i>
	<b>Panel Discussion: Sustainability Driving Future of Engineering, Jobs, Economy and Life</b>
	<b>Panel Moderator</b> <i>Prof Seeram Ramakrishna, FREng, Chairman, Circular Economy Taskforce NUS and Chairman, Sustainable Manufacturing Technical Committee, The Institution of Engineers, Singapore (IES)</i>
	<b>Panel Members</b>
12.05pm	<ul style="list-style-type: none"><li>• <b>Mr Benedict Chia</b>, Director (Strategic Issues), National Climate Change Secretariat (NCCS), Strategy Group, Prime Minister Office</li><li>• <b>Dr Bicky Bhangu</b>, President, South East Asia, Pacific &amp; South Korea, Rolls-Royce</li><li>• <b>Mr Calvin Chung</b>, Chief Environmental Officer, JTC Corporation</li><li>• <b>Er. Goh Chee Tiong</b>, Chief Engineer / Deputy Director, Industry Regulation 1 Department, Carbon Mitigation Division, National Environment Agency (NEA)</li><li>• <b>Dr Hazel Khoo</b>, Executive Director, Singapore Institute of Food and Biotechnology Innovation (SIFBI), A*STAR</li><li>• <b>Prof Lui Pao Chuen</b>, Temasek Defence Professor</li></ul>
1.00pm	End of Lecture

# WHY YOU SHOULD ATTEND

Today's sustainability challenges and the recent disruption brought about by COVID-19 has brought us closer together as family, community, nation and deepen determination and resolve. It has also presented opportunity for a reset to re-create our economy, businesses and our vision to be recognised as forerunner in sustainability and green industries.

**SG Green Plan 2030** has revealed a comprehensive 'whole-of-nation-movement' to re-create Singapore in order to achieve a sustainable future. To succeed, it takes every intentional steps across the society, to convert awareness to conviction and to transform green ambition to reality. This lecture serves as a platform to educate, engage and inspire, not only the engineering and scientific community, but also the general public and especially our young students, the future of Singapore.

## KEY TAKEAWAYS

- **Hear** from thought-leaders and topic experts on shaping the sustainable city and community of the future.
- **Celebrate** engineering contribution and achievement in commemoration of the WFEO's World Engineering Day for Sustainable Development.
- **Join** the free-of-charge event via virtual live streaming at Science Centre, IHLs and venues of convenience.
- **Learn** and **earn** professional development points.

## ABOUT ER. CHARLES RUDD

Er. Charles Rudd was a Founder Member and Fellow of the Institution of Engineers, Singapore, who bequeathed \$1.23 million to IES.

Charles was born in New Zealand and obtained his BSc, MSc and BEng from the University of New Zealand. He also held an MSc from the University of London. He came to Singapore during the war and worked for Alliance Engineering before starting his consulting firm Rudd Technical Consultants. He was a registered Professional Engineer from both Singapore and Malaysia.

Er. Charles Rudd was a stalwart supporter and a staunch friend of the Institution until he suffered a stroke in 1990. He had served in the IES Council and represented IES in several SISIR technical committees. He was President of the Rotary Club in 1974/75.

Charles is remembered as a very active participant at seminars and workshops. The Charles Rudd Distinguished Lecture series is appropriately named after him to emulate his spirit of continuous professional development and active learning.

Prof Seeram Ramakrishna

Ms Madelyn Kia

Ms Charlotte Seah

The World Engineering Day for Sustainable Development was proclaimed by UNESCO at its 40th General Conference in 2019. It is celebrated worldwide on 4th March of each year since 2020. The day offers an opportunity to highlight engineers and engineering's achievements in our modern world and improve public understanding of how engineering and technology are central to modern life and for sustainable development.

The World Engineering Day 2021 (WED2021), with the theme "Engineering for A Healthy Planet- Celebrating the UNESCO Engineering Report", will focus on celebrating the launch of the 2nd UNESCO Engineering Report "Engineering for Sustainable Development: Delivering on the Sustainable Development Goals". Ten years after the publication of the 1st UNESCO Engineering Report, "Engineering: Issues, Challenges and Opportunities for Development", the new report highlights the crucial role of engineering in delivering the 2030 Agenda for sustainable development, shows how inclusive and gender equitable engineering profession can bring about new perspectives and thus respond to the shortage of engineers, showcases of engineering innovations for implementation of the SDGs, analyses the progresses in and challenges in engineering education and capacity building, and summarizes the regional trends of engineering development. Finally, it gives recommendations for developing engineering for the SDGs, and calls for global cooperation with multiple stakeholders to promote development of engineering for the SDGs.

## SIDE EVENT @ SCIENCE CENTRE SINGAPORE

Join us at the satellite venue for live streaming of the lecture **AND** embark on a learning trail at Science Centre's **Urban Mutation** and/or **Future Makers** exhibitions!

Venue: Maxwell Auditorium

Date: 14 May 2021

*Registration starts from 8.30am*

*\*Limited seating capacity,  
pre-registration required.*

# We place **sustainability** at the core of everything we do

At CapitaLand, we are committed to growing in a responsible manner, delivering long-term economic value, and contributing to the environmental and social well-being of our communities.

We will leverage CapitaLand's presence in over 230 cities and over 30 countries globally to make a larger positive impact on the communities.

Through CapitaLand's 2030 Sustainability Master Plan, we are elevating our environmental, social and governance efforts.

We aim to build portfolio resilience and resource efficiency, enable thriving and future-adaptive communities, and accelerate sustainability innovation and collaboration.
